

Tool Crib's Dry Moly Lube is a quick drying, thin film that provides superior lubrication under extreme pressures and broad temperature ranges. It provides excellent adhesion, is oil free, and protects against seizing, fretting, and galling. The product offers excellent anti-wear protection for cutting and forming tools.

FEATURES & BENEFITS

- Ideal for dust free lubrication for pre-assembly and production, wire drawings, machine tool slides, and conveyors (hi-temperature)
- Resistant to dirt and dust pick up
- Works well under high temperatures and high pressures
- Provides excellent adhesion

PRODUCT SPECIFICATIONS

Part No. 620-1505

Size: 20 oz. Can / 14 oz. Net Wt.

Case Pack 6
